Supply Chain Human Rights Due Diligence Process

The Anritsu Group CSR Procurement Guideline is distributed to supply chain business partners to seek their understandings of the Guideline. Also, letters of consent are obtained from the business partners to the effect that they will respect and cooperate with initiatives for the CSR Procurement Policy.

Anritsu also conducts CSR procurement surveys to its business partners. Based on the results of the surveys, we conducted the audit of several business partners. By further strengthening this initiative, we will grasp the actual situation of CSR procurement in the supply chain, and strive to penetrate and improve CSR procurement.

The surveys include the questions concerning the following topics:

1. Prohibit forced labor,
2. Prohibit inhumane treatment and infringements of human rights,
3. Prohibit child labor,
4. Prohibit discrimination,
5. Pay appropriate wages,
6. Regulate working hours,
7. Respect the rights to freedom of association

Supply Chain Risk Assessment (including the report of activity)

Anritsu grasps human rights risks in the supply chain by analyzing and assessing the content of the answers to the CSR procurement surveys. It also holds briefings for supply chain business partners, several times a year, to explain Anritsu Sustainability Management and CSR Procurement Policy and requests their understandings of CSR procurement.

The effectiveness of the supply chain business partners' CSR procurement is confirmed from the content of the answers to the CSR procurement surveys, as well as by monitoring the number of answers and response rates to the surveys. We also conduct site visits to supply chain business partners to confirm the effectiveness of CSR procurement in the supply chain. Due to the impact of COVID-19, we were not able to conduct the audit in the fiscal year, but with an eye on the future, we have started to consider the implementation of online auditing as an alternative method.

In the period from April 2020 through March 2021, we conducted the following human rights due diligence activities in order to understand human rights risks in the supply chain.

- January 2021: At the business partner meeting, the Global Procurement Operation Division introduced "Promotion of CSR Procurement Activities" and "SDGs Activities" to the participating business partners.
- We have started to consider an online audit for implementation in the next fiscal year.
- In addition to the English version, we have created a new Chinese version of the CSR procurement questionnaire for our outside Japan business partners.
- We have received answers to the CSR procurement questionnaire from 208 suppliers and requested the remaining 8 suppliers who had not responded to cooperate in submitting their responses. (Requested 3 times.)
(As of March 2021, we have received responses from 2 companies, and 6 companies are still pending. We will prioritise following up with these suppliers as well as with the questionnaire to be updated for this fiscal year.)

Advancing beyond

- The activities related to “Human Rights Due Diligence for Supply Chain” from April 2021 are scheduled to be as follows.
