SUPPLY CHAIN

Flavour Makers has over 400 active supply partners, with the majority (217) being direct ingredient and packaging suppliers. Whilst Flavour Makers endeavours to source locally wherever possible, these are from 64 sourcing countries. Flavour Makers supply chain includes over 24 indirect suppliers supporting our operations including activities such as pest control, labour hire services, cleaning services, logistics services, maintenance and equipment services.

During the period of this report, there have been no material changes to our organisational structure, operations or supply chain that would impact the level of modern slavery risk.

Flavour Makers Supplier Approvals process is managed as a part of our Quality Management System that provides a method of evaluating and rating (approving) companies who supply or who wish to supply products and services to Flavour Makers to ensure they meet the necessary quality, food safety and ethical standards required by Flavour Makers.

Flavour Makers employs the Supplier Ethical Data Exchange (SEDEX) program to assess supplier adherence to these standards, to assess social and environmental aspects. To reaffirm our supplier's commitment to modern slavery, existing and new suppliers are required to review and sign our Ethical Trading Policy. This policy was developed in accordance with the internationally recognised Ethical Trading (ETI) Base Code codes of practice and has been completed for 100% of our suppliers. Flavour Makers will continue to conduct assessment of risk to prioritise supplier engagement and modern slavery risk mitigation activities over the next financial year. Flavour Makers will continue to assess risk utilising:

- Sedex Data
- Flavour Makers Group Ethical Policy (in accordance with the internationally recognised Ethical Trading (ETI) Base Code codes of practice) or supplier equivalent
- Country of Manufacture
- Global Slavery Index

Standard visits to suppliers and co-manufacturers for the purpose of the supplier checks have been restricted in keeping with Government guidelines and travel restrictions.

EFFECTIVENESS OF OUR ACTIONS

To ensure our actions are effectively reducing or preventing modern slavery practices we have set up a senior management group to review our response to modern slavery. The management group will integrate the findings of Flavour Makers Ethical Trading & Modern Slavery Working Group, and the results of our Supplier Approval Program, ongoing risk assessment and planned activities. The senior management annual review ensures programs and risk assessments are relevant and up to date. The results of our consultation and review will form the basis of our Modern Slavery Statements.

We monitor the effectiveness of our actions to remove the risk of modern slavery from our operations and supply chain by:
