III. Identifying the Risk of Modern Slavery

Being a part of DBG, 360T AG is committed to a high degree of transparency towards its stakeholders – along every step of the value creation chain.

Referring to the DBG purpose statement - *We at Deutsche Boerse create trust in the markets of today and tomorrow* – the 360T Group constantly strives to create the best environment for its employees to perform, innovate and develop. Integrity, loyalty, and fairness are the key elements of 360T Group’s corporate culture which is explicitly laid out in its Code of Business Conduct.

We understand that slavery can occur in many forms, such as forced labour, child labour, domestic servitude, sex trafficking, and human trafficking. In this statement we refer to ‘modern slavery’ as defined by The Australian Modern Slavery Act 2018

We constantly strive to understand and improve human rights impacts throughout our broader value chain and not purely where we have operational control. However, given our scale and diversity we are aware of the risk of indirect exposure to human rights impacts, particularly via our procurement activities where more than one party may stand between us, and the rights holders affected. Accordingly, we seek to understand our impacts and exercise influence where possible.
