AZ NGA

Joint Modern Slavery Statement 2025:

AZ Aust Holdings Pty Ltd

Introduction

Modern slavery is a term used to cover practices such as forced labour, slavery, debt bondage, extreme forms of child labour, forced marriage, deceptive recruitment, and human trafficking. It is a human rights violation and exploitative crime that with devastating consequences for the health and well-being of its victims.

This statement is prepared under section 13 of the Modern Slavery Act 2018 (Cth) (the Act) for the reporting period 1 January 2025 to 31 December 2025.

AZ Aust Holdings Pty Ltd (**AZ NGA**) remains committed to upholding human rights and eliminating modern slavery in its operations and supply chains, and in those of the entities it owns and controls. While this is the fourth modern slavery statement submitted across the AZ NGA group, it is the second statement submitted by AZ Aust Holdings Pty Ltd. This change in reporting entity reflects a corporate restructure. AZ NGA recognises that fulfilling this commitment requires proactive and meaningful action, and this statement outlines the steps taken during 2025 to identify, assess and address modern slavery risks.

AZ NGA is committed to transparency in its approach, and this statement reflects its experience in identifying, assessing and addressing modern slavery risks.

AZ NGA welcomes feedback and looks forward to continuing to work with stakeholders to address this serious human rights issue.

Reporting entities

AZ Aust Holdings Pty Limited as made this statement according to sections 14 and 16 of the Act. The statement applies to the following
reporting entities (reporting entities) each with a Registered Office of Level 10, 88 Phillip St Sydney 2000:

- AZ Aust Holdings Pty Ltd
- AZ NGA Holdings Pty Ltd
- AZ Next Generation Advisory Pty Ltd

A reference to AZ NGA or we or us or our is a reference to the above reporting entities collectively or individually as the context requires. A brief description of the relationship between these entities is set out in Criterion 2 – Describe the entity structure, operations and supply chains. For any references to an entity having 'control' of another entity, the term 'control' has the meaning given in the Act.

Criterion 1 – Identify the Entity

AZ NGA is a group of proprietary limited companies registered in New South Wales. AZ NGA provides strategic and operational support to assist its businesses to establish goals and achieve targets and key performance indicators.

AZ NGA had annual consolidated revenue of *AUD$293 million* for the 2025 financial year.

AZ NGA is governed by a Board of Directors that is made up of representatives of classes of Shareholders and are nominated by Shareholders and an independant director. The Board is responsible for ensuring that AZ NGA has an appropriate corporate governance structure.

Criterion 2 – Describe the entity structure, operations and supply chains.

AZ NGA is a collective of high-quality accounting, advisory and professional services firms run by passionate business leaders who are united by common values and a shared vision to build an exceptional professional services advisory group.

AZ NGA is owned by several shareholders, including Oaktree Capital Management L.P (**Oaktree**), a leader among global investment managers specializing in alternative investments and Azimut UK Holdings Limited (**Azimut**), one of Europe's leading independent financial services companies. The other shareholders are largely the owners of the businesses that AZ NGA invests in and acquires.

In the reporting period, AZ NGA had 39 Core Firms (**Core Firms**) that provided the core services operated by AZNGA. In addition, AZ Services Co Pty Ltd ACN 635 482 558 (**AZ Services Co**) provided some services to some of these entities, including labour to some of these companies. AZ Services Co complies with this policy and all of its employees are located in Australia. These businesses and AZ Services Co are operated through AZ NGA and entities that AZ NGA ultimately owns and controls, and they operate across more than 70 office locations.

In the reporting period, AZ NGA held minority equity stakes in 13 financial advice firms as part of its equity portfolio pillar and provided those firms with ongoing support to drive efficiencies and support business growth.

Please refer to Annexure B for a complete list of all Core Firms that AZ NGA owns or controls as at 31 December 2025, including details of their principal businesses, business activities and locations. Core Firms comprise Member

Firms and Super Firms. For ease of reference, these entities are referred to throughout this statement as AZ NGA Subsidiaries.

AZ NGA's head office is in Sydney. Collectively, AZ NGA employs over 2000 employees. These employees undertake a range of functions including legal, management, advisory, procurement, human resources, and office support.

The reporting entities form part of the AZ NGA corporate group, with AZ Next Generation Advisory Pty Ltd consolidating the revenue of the AZ NGA Subsidiaries. AZ NGA Holdings Pty Ltd and AZ Aust Holdings Pty Ltd sit above and control AZ Next Generation Advisory Pty Ltd as holding entities. Given the integrated nature of governance, risk management, and group-level policies across the structure, a joint statement provides a clear and comprehensive view of the group's approach to identifying and addressing modern slavery risks.

a) Operations

AZ NGA's vision is to be the world's leading professional services advisory company by supporting people, clients and entrepreneurs to succeed and grow.

To achieve this, AZ NGA's strategy is focused on three pillars: Super Firms, Core Firms and the equity portfolio. Core Firms comprise two types of businesses: Member Firms and Super Firms. This strategy includes strengthening Core Firms across the group, developing Super Firms that provide a broader range of integrated advisory services, and supporting the growth and performance of AZ NGA's equity portfolio.

AZ NGA implements this strategy by supporting business owners and leadership teams across its Core Firms, including Member Firms and Super Firms, and across the equity portfolio, with the benefit of input and oversight from AZ NGA's experienced senior leadership team and the backing of two international investors.

Further information on AZ NGA's principal business activities is discussed below and is also available on its website: https://www.aznga.com/.

AZ NGA's principal business activities

AZ NGA's principal business activities are delivered through its three strategic pillars: Super Firms, Core Firms and the equity portfolio. Core Firms comprise Member Firms and Super Firms. Across these pillars, AZ NGA invests in professional advisory businesses, including financial planning, accounting and other professional services businesses. Specifically, AZ NGA's principal business activities are:

- investing in, acquiring and supporting businesses across its Core Firms, including Member Firms and Super Firms, and its equity portfolio (**Investment Activities**); and
- providing management and SME support services across those pillars, including to Core Firms and the equity portfolio (**Management and Support Services**), (collectively, **AZ NGA's Business Activities**).

b) Products and Services

All our products and services are based in Australia or the Philippines and include:

Accounting Firms	These firms specialise in providing professional taxation and accounting advice and services to individuals, family groups, businesses, and their related tax entities such as self-managed superannuation funds, family trusts and private companies.
Financial Advisory Firms	These firms specialise in providing professional taxation and accounting advice and services to individuals, family groups, businesses, and their related tax entities such as self-managed superannuation funds, family trusts and private companies.
Integrated Financial Services Firm	These firms are focused on the providing advice for multiple client needs (other than just accounting or financial planning). This can extend to legal advice, finance, property advice and cash flow management.
Outsource back-office	This firm provides back-office services, including admin and bookkeeping support, based in Philippines.
Outsourced HR support	This firm provides human resources services including strategy, advisory, compliance, and recruitment support.

c) AZ NGA Supply Chain

AZ NGA's supply chain reflects a reduced and more consolidated supplier base as the group continues its transition from a federated model to a consolidated group model. This transition is reducing the number of suppliers engaged across the group, streamlined procurement activity and improved visibility across supplier relationships and supply chain risks. The majority of suppliers are located in Australia, with limited supplier engagement outside Australia.

The products and services procured by AZ NGA reflect its Business Activities and include, but are not limited to:

- accreditation and training;
- occupation of premises and associated commercial lease arrangements;

- telecommunications and IT-related services and products, including software, web design and web hosting services;
- computer equipment and office supplies;
- professional and consulting services, including legal and tax advice;
- travel and accommodation;
- food and beverage;
- insurance; and
- postage and courier services.

Given the nature of AZ NGA's Business Activities, and as part of its transition from a federated model to a more consolidated group model, AZ NGA centralised several supplier arrangements during the reporting period and will continue to do so in the next reporting period. This includes continuing to consolidate its lease footprint into 2026. These actions reduced fragmented supplier engagement, enabled more consistent oversight of key suppliers and improved the group's ability to identify, assess and monitor supply chain risks, including modern slavery risk.

Some supplier arrangements are short-term or variable in nature. For example, AZ NGA's engagement of suppliers for the following goods and services may vary depending on operational needs, timing and location:
- beverage, travel and accommodation, which often depend on the timing and location of AZ NGA's Business Activities; and
- training and conference attendance, which depend on the skills, capability uplift and networks being developed at a particular point in time.

By contrast, some supplier arrangements are more stable and longer-term in nature, including:
- commercial lease arrangements;
- contracts for professional and consulting services; and
- supply agreements for IT hardware and software to support AZ NGA's Business Activities.
-

AZ NGA also retains a degree of choice and flexibility in relation to certain suppliers and the products and services it acquires, which supports its ability to respond to supply chain risk where required.

d) AZ NGA Subsidiaries – Supply Chain

Historically, many businesses operated under a more federated model with separate supplier arrangements. During 2025, AZ NGA continued its transition to a more consolidated group model, which improved visibility across supplier relationships, reduced duplication in supplier engagement and strengthened oversight of supply chain risks across the group.

AZ NGA's subsidiary in the Philippines achieved BCorp Certification in 2024, which remained in place during the 2026 reporting period.

Criterion 3 – Actions Taken to Identify the Risks of Modern Slavery

The Act provides eight types of exploitation that meet the definition of modern slavery. They are:

1) trafficking in persons
2) slavery
3) servitude
4) forced marriage
5) forced labour
6) debt bondage
7) deceptive recruiting for labour or services; and
8) the worst forms of child labour.

The worst forms of child labour refer to slavery practices or hazardous work involving children.

a) Direct Suppliers – Consolidation and Supplier Selection

For the 2025 reporting period, AZ NGA did not undertake a comprehensive risk assessment of all direct suppliers. Instead, the primary focus during the reporting period was progressing the supplier consolidation project and selecting high-quality suppliers as part of AZ NGA's transition from a federated model to a more consolidated group model.

In this context, AZ NGA identified the following three principal modern slavery risk categories as remaining relevant to its operations and supply chains:

- occupation of premises and commercial lease arrangements: modern slavery risks may arise in relation to building services associated with commercial premises, particularly cleaning, security and maintenance services;
- modern slavery risks may arise in relation to contracted cleaning and related services in accommodation settings, including hotels in Australia and overseas jurisdictions; and
- IT and electronic hardware: modern slavery risks may arise in connection with the extraction of raw materials used in electronics, as well as the manufacturing and disposal processes associated with IT equipment more broadly. These risks typically arise deeper in supply chains, often in jurisdictions with elevated modern slavery risk and where AZ NGA has limited visibility over suppliers and affected workers.

AZ NGA seeks to manage these risks by engaging relevant service providers that are expected to appropriately manage modern slavery risk within their own labour and service supply chains. AZ NGA's supplier consolidation and centralisation strategy is intended to support more consistent oversight of suppliers and strengthen its ability to identify and manage these risks over time.

Criterion 4 – Actions Taken

AZ NGA is committed to taking proactive action to assess and address modern slavery risks within its operations and supply chains. In the prior reporting period, AZ NGA committed to three actions, and this statement outlines the progress made against those commitments during 2025.

#	*Action*	*Not actioned*	*Actioned*
1	Reducing supplier risk through supplier consolidation and the selection of high-quality suppliers as part of AZ NGA's transition to a more consolidated group model.		**Yes**
2	Tightening and reducing the number of outsourced and offshore providers to improve oversight, consistency and visibility across higher-risk supply chain arrangements.	-	**Yes**
3	Lease footprint consolidation to reduce fragmented lease arrangements and improve oversight of lease-related supply chain risk across the group.	**Commenced, to be completed in 2026**	

1. Actions Taken in FY25

Direct Supplier Consolidation and Supplier Selection

In 2025, AZ NGA focused on practical steps to reduce supplier risk as part of its transition from a federated model to a more consolidated group model. These steps included supplier consolidation, tightening and reducing the number of outsourced and offshore providers, and commencing consolidation of the group's lease footprint.

In relation to direct suppliers, AZ NGA focused on progressing supplier consolidation and selecting high-quality suppliers. This approach reduced supplier fragmentation, improved visibility across supplier relationships and supported a more consistent approach to identifying and managing supply chain risk, including modern slavery risk.

During 2025, AZ NGA did not undertake a comprehensive assessment of all direct suppliers. Instead, its supply chain work focused on reducing supplier risk through consolidation and through the utilisation of a service company, AZ Services Co, tightening and reducing the number of outsourced and offshore providers, and commencing lease footprint consolidation. AZ NGA recognises that modern slavery risk may increase further down the supply chain, and that reduced supplier fragmentation can strengthen the group's ability to identify and monitor indirect supply chain risks over time.

These actions also identified further opportunities to strengthen governance settings as AZ NGA continues its transition to a consolidated group model. In particular, AZ NGA will continue to embed modern slavery considerations into supplier onboarding, outsourcing and offshoring arrangements, contract renewal processes and lease footprint consolidation during the next reporting period.

c) Allocation of responsibility

AZ NGA has allocated the Head of Legal and Risk as the senior representative for assessing and addressing modern slavery risks in supply chains and operations.

2. Continued Approach:

Improvement Road Map

AZ NGA is committed to continually improving its approach to managing modern slavery risks and will continue to develop its capability to respond to those risks across its operations and supply chains, and those of AZ NGA Core Firms, over subsequent reporting periods.

In future reporting periods, AZ NGA will continue to work towards:

- Continue to embed procurement, delegation, outsourcing and offshoring controls that support a consolidated group model and strengthen the group's approach to managing modern slavery risk.

- Continue reviewing supplier minimum standards and outsourced and offshore arrangements to improve supply chain visibility and support ongoing monitoring of modern slavery risk across a reduced supplier base.
    - Continue consolidating AZ NGA's lease footprint during 2026 as part of the group's transition to a more consolidated operating model, with a view to reducing fragmented supplier arrangements and improving oversight of lease-related supply chain risks.

- Embed modern slavery considerations into the quarterly Risk Forum and Audit and Risk Committee escalating areas of concern where required.

<u>Criterion 5 – Assessing effectiveness.</u>

In the 2026 reporting period, AZ NGA focused on continuing to embed modern slavery considerations into group practices, policies and procedures while progressing from a federated model to a more consolidated group model. This reduced supplier fragmentation, improved oversight of supplier arrangements and enhanced visibility across supply chain risks at a group level.

Criterion 6 – Consultation process

The risk, legal and finance functions at AZ NGA assisted in the preparation and drafting of this statement. Management was also involved in considering the ongoing actions required to identify, assess and address modern slavery risks within the operations and supply chains of AZ NGA and its Core Firms.

Conclusion

This is the second joint Modern Slavery Statement submitted by the reporting entities and the fourth modern slavery statement submitted across the AZ NGA group. During 2025, AZ NGA continued to strengthen its approach to identifying, assessing and addressing modern slavery risks across its operations and supply chains, including those of its Core Firms. In particular, AZ NGA progressed supplier consolidation, tightened and reduced outsourced and offshore arrangements, and commenced lease footprint consolidation to improve oversight and reduce supplier fragmentation. AZ NGA recognises that modern slavery risk remains an ongoing area of focus and will continue to strengthen its governance, oversight and risk management processes over time.

AZ NGA is committed to ensuring meaningful progress in each reporting period and to continuing to strengthen its management of modern slavery risk across the group.

Annexure A

MODERN SLAVERY ACT 2018 (CTH) – STATEMENT

Principal Governing Body Approval

This modern slavery statement was approved on the 24 June 2026
by the Board of of each of the reporting entities.

Signature of Responsible Member

This modern slavery statement is signed by a responsible member of each of the reporting entities as defined by the Act:

Paul Barrett

____

Paul Barrett
Director

Mandatory Criteria

The below table outlines the page number/s of our statement that addresses each of the mandatory criteria in section 16 of the Act.

Mandatory criteria	*Page number/s*
a) Identify the reporting entity	2-3
b) Describe the reporting entity's structure, operations and supply chains.	3-6
c) Describe the risks of modern slavery practices in the operations and supply chains of the reporting entity and any entities it owns or controls.	6-7
d) Describe the actions taken by the reporting entity and any entities it owns or controls to assess and address these risks, including due diligence and remediation processes.	7-9
e) Describe how the reporting entity assesses the effectiveness of these actions.	9
f) Describe the process of consultation on the development of the statement with any entities the reporting entity owns or controls (a joint statement must also describe consultations with the entity covered by the statement).	9
g) Any other information that the reporting entity, or the entity giving the statement, consider relevant.	7-10
