# **Modern Slavery Risks**

The RE understands that modern slavery risk can occur in operations and supply chains. The RE considers risk assessment a critical process to identifying the inherent risk of modern slavery across the Trust.

#### Defining modern slavery risks

Modern Slavery is an umbrella term. Essentially, it refers to situations of exploitation that a person cannot refuse or leave because of threats, violence, coercion, deception, abuse of power, or deception. It is largely invisible, in part because it disproportionately affects the most marginalised." The RE recognises that COVID-19 has exacerbated modern slavery risks for people in vulnerable situations.<sup>2</sup>

Modern slavery includes human trafficking, slavery, servitude, forced marriage, forced labour, debt bondage, deceptive recruiting for labour or services and the worst forms of child labour.<sup>3</sup> When thinking about the risk of modern slavery practices, this means the potential for the Trust to cause, contribute to, or be directly linked to modern slavery through the Trust's operations or supply chain.

#### Risk assessment methodology

In FY21, the RE collected information on the Trust's supply chain to include in a modern slavery risk assessment. Specifically, the RE investigated critical service providers that the Trust has a direct relationship with. These critical service providers were then assessed for inherent modern slavery risks and an inherent risk profile was determined for each entity. Inherent risk is the level of risk before any actions are taken to manage the risk's impact or likelihood

#### **Risk Assessment Results**

**Supply Chain** 

<sup>&</sup>lt;sup>1</sup> The Minderoo Foundation, 2018. <u>The Global Slavery Index 2018</u>, 7,2.

<sup>&</sup>lt;sup>2</sup> Obokata, Tomoya, United Nations, 2020. Impact of the coronavirus disease pandemic on contemporary forms of slavery and slavery-like practices

<sup>&</sup>lt;sup>3</sup> As defined in the Australian Modern Slavery Act 2018 (Cth)

The RE's FY21 risk assessment did not identify any high-risk critical service providers. This is because, all critical service providers are investment management and professional services.

## **Actions to Address Modern Slavery Risks**

## **Due Diligence**

#### Risk assessment

The RE's annual risk assessment was conducted to assess the Trust's inherent modern slavery risks in their supply chain.

## **Investments**

First Sentier as the Investment Manager for the Trust are continuing to evolve their policy and framework to identify, monitor, assess, manage and report on modern slavery risks in their supply chain. <u>First Sentier</u> is required to report under the *Modern Slavery Act* 2018 (Cth). Their statement is prepared and issued by First Sentier Investor Holdings Pty Limited ACN 630 725 558. As they are reporting entities, they have modern slavery due diligence processes in place.

Whilst the RE has an indirect exposure to modern slavery via its investments in the Australian corporate loans and debt instruments; the RE has no contractual right to investigate or effect action.

## **Supply Chain**

As the RE for the Trust, the RE owns the relationships with the direct service providers which are used by the Trust. The RE is subject to the same policies, due diligence and remediation process to address modern slavery as the Perpetual Group.

#### **Policies**

#### **Modern Slavery Framework**

The Perpetual Group has a modern slavery framework. This framework sets out the programs, processes and tools in place to ensure compliance with the Modern Slavery Act. It also provides a consistent framework to effectively manage modern slavery risks and enhances management team's awareness and understanding of modern slavery risks.

## **Due Diligence and training**

#### **Contract clauses**

The RE continues to include contractual provisions focused on modern slavery within contractual terms with new suppliers to ensure suppliers understand that they are required to assess and manage modern slavery risk in their business.

## Grievance mechanism

In FY21 the whistle-blower policy was updated to include modern slavery as a form of reportable misconduct. Through this mechanism, employees can report any concerns to a Whistle-blower Protection Officer within Perpetual or anonymously through a third-party whistle-blower hotline.

#### **Training**

The RE recognises the need for capacity building across Perpetual to increase knowledge and to highlight the importance of addressing modern slavery. In FY21 we developed a training module for all Australian based employees to undertake. This training program is currently being implemented across our organisation.

## Remediation

In FY21 Perpetual finalised the remediation process for Modern Slavery. The purpose of remediation is to ensure Perpetual takes reasonable steps to:

Address the underlying root causes driving the modern slavery if possible; and

 Prevent the modern slavery impact from re-occurring by collaborating, supporting remediation and monitoring the implementation of remedial measures taken by another party; and Ensure compliance with national and international labour and human rights standards

# **Measuring the Effectiveness of Actions**

Outlined below is the key progress made by the RE on behalf of the Trust in FY21 and the actions for FY22.

# FY21 progress:

- Mapped the Trust's supply chain to identify the different sectors that the service providers are from; and
- Conducted annual risk assessment to determine inherent modern slavery risks of critical service providers.

#### **Actions for FY22**

- Monitor emerging global trends in modern slavery and include anything relevant for the FY22 risk assessment
