

# FY23 Modern Slavery Statement

For Financial Year ending 31 December 2023

## Reporting Entity

This statement is submitted under section 13 of the Modern Slavery Act 2018 (Cth) for the LOGOS Australian Logistics Venture Trust (ABN 68 259 801 426) (“the Trust”). This Statement has been prepared by The Trust Company (Australia) Limited ACN 000 000 993 (“the Trustee”) and approved by the board of directors of the Trustee on 26 June, 2024

Signature

William Emerton - Director

The Trust Company (Australia) Limited

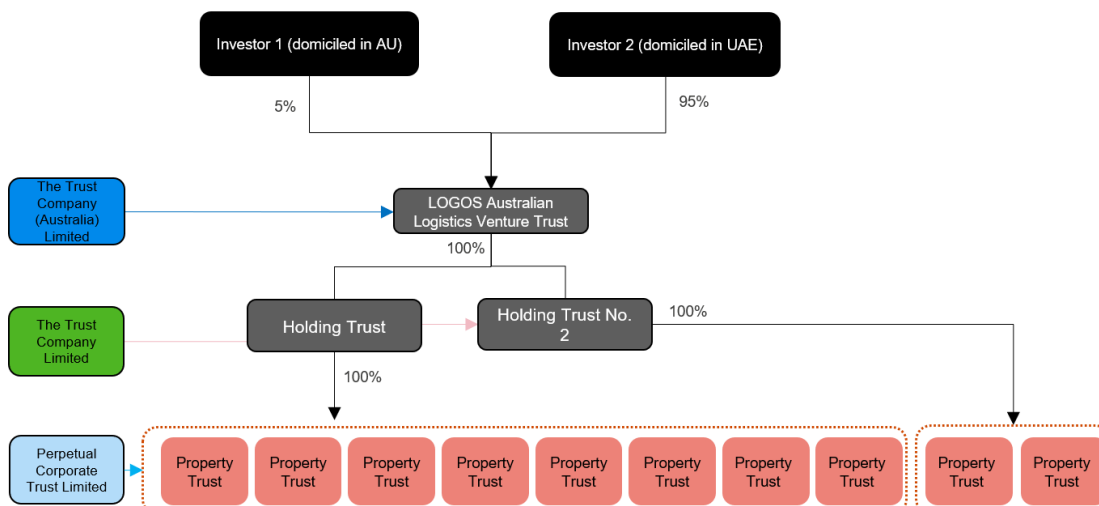

## Consultation

There are no subsidiaries or entities owned or controlled by the Trust which the Trustee is required to consult with to prepare this statement. This statement was developed in consultation with the Investment Manager for the Trust.

## Structure, Operations and Supply Chain

### Structure

LOGOS Australian Logistics Venture Trust is domiciled in Australia and has been in operation since 10 November 2014. The below structure diagram shows that the Trust is owned by 2 investors, in the UAE and Australia. The Trust invests directly in units in Holding Trust and Holding Trust No. 2, which subsequently invests in underlying Property Trusts. The Property Trusts directly hold real assets, being industrial properties. At the LOGOS Australian Logistics Venture Trust level, there is no real property directly owned, and there are no employees.

---

## Operations

The primary operation of LOGOS Australian Logistics Venture Trust is the investment in underlying trusts, which collectively form a portfolio of investment grade industrial real estate assets. Perpetual Limited's division Perpetual Corporate Trust is trustee for the trust.

## Perpetual Corporate Trust (PCT)

The Trust sits within PCT, which is a division of Perpetual Limited and forms part of the Perpetual Group. PCT provides a broad range of fiduciary, agency and digital products to the debt capital markets and managed funds industries both domestically and internationally. Debt Market Services includes trustee, document custodian, agency, trust management, accounting, standby servicing, and reporting solutions. Perpetual Digital provides data services, industry roundtables, and our new Perpetual Intelligence platform-as-a-service products supporting the banking and financial services industry. Managed Funds Services provides services including independent responsible entity, wholesale trustee, custodian, investment management and accounting (such as those provided by the Trust).

## Investments

The Trust's Assets under Management was a total of \$2,977,268,387. These assets are in investments into underlying Property Trusts where the asset classes are industrial property. The account domicile was only in Australia.

## Supply chain

The Trust's supply chain consists of four direct service providers. These service providers are all located in Australia.

## Procurement categories for service providers are:

- Investment management services
- Professional services, including a tax agent, auditor, and legal advisers

## Modern Slavery Risks

The Trustee understands that modern slavery risk can occur in operations and supply chains. The Trustee considers risk assessment a critical process to identifying the inherent risk of modern slavery of the Trust. As Trustee, we conduct an annual risk assessment on all Trusts that meet the Modern Slavery Act reporting threshold. The risk assessment is done separately to Perpetual Group's corporate modern slavery risk assessment and is in addition to routine due diligence activities undertaken for management of the Trust.

## Defining modern slavery risks

Modern slavery is serious exploitation that undermines a person's freedom. In a situation where modern slavery occurs, a person cannot refuse or leave due to threats, violence, coercion, abuse of power, or deception<sup>1</sup>. Modern slavery occurs in a variety of forms, there are eight types including human trafficking, slavery, servitude, forced marriage, forced labour, debt bondage, deceptive recruiting for labour or services and the worst forms of child labour<sup>2</sup>.

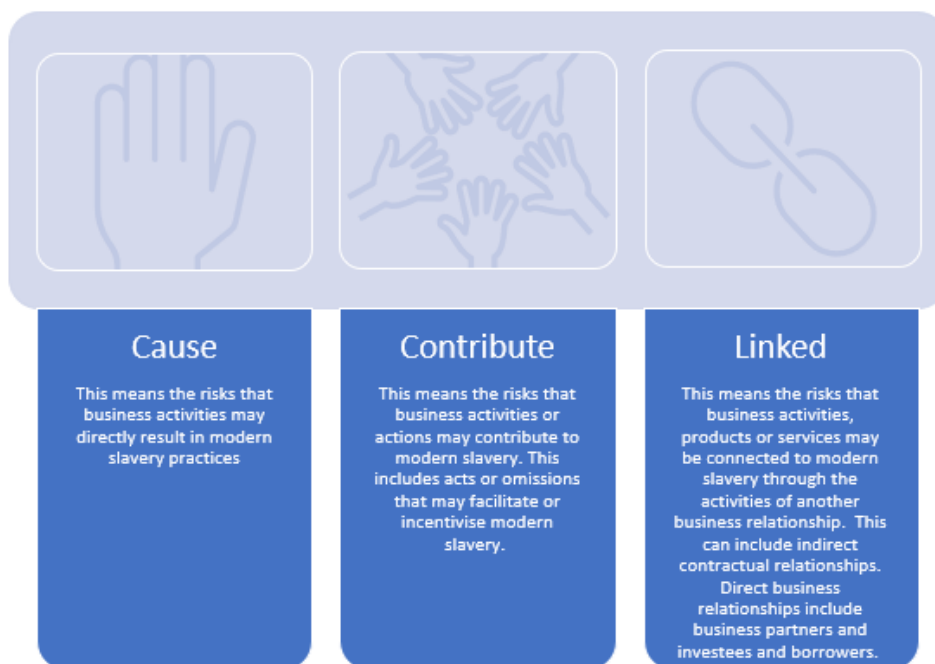

Modern slavery risk means the potential for the Trust to cause, contribute to, or be directly linked to modern slavery through their operation or supply chain. This means looking at risks to people rather than risk to the company (such as

<sup>2</sup> As defined in the Australian Modern Slavery Act 2018 (Cth)

reputational or financial damage), although often these risks are connected. The Trust recognises that COVID-19, conflict and climate change driving migration has exacerbated modern slavery risks for people in vulnerable situations<sup>3</sup>.

### Risk assessment methodology

It is possible that Perpetual, as Trustee, may be linked to modern slavery via the investments and suppliers within the Trust. In FY23, the Trustee collected information on the Trust’s supply chain and operations to include in a modern slavery risk assessment. Specifically, the Trustee investigated the investment trust and service providers that we have a direct relationship with. The investment trust and service providers were then assessed for inherent modern slavery risks and an inherent risk profile was determined for each entity. Inherent risk is the level of risk before any actions are taken to manage the risk’s impact or likelihood.

### Risk Assessment Results

#### Investments

The Trust’s investment footprint is concentrated as all their assets are units held in two Holding Trusts which invest into underlying Property Trusts focussed on industrial asset acquisition and development. The FY23 risk assessment conducted by the Trustee revealed that this investment sector is considered to have higher inherent risk, as it is a part of the property and construction industries. The below information summarises the risks in this industry. The approach to due diligence and assessment is informed by this risk profile.

Investment Sector	Inherent Risk Profile
Industrial property investment and development	The property and construction industries have a higher risk of modern slavery due to the high demand for low-skilled labour, limited visibility of long and complex supply chains and low-tier suppliers that operate in high-risk geographies <sup>4</sup> .

---

## Supply Chain

The Trustee's FY23 risk assessment did not identify any high-risk service providers. This is because all service providers are professional services providers who operate in Australia. The below information summarises the risks in these industries.

Sector/Product	Inherent Risk Profile
Investment & Asset Managers	There is low inherent risk of modern slavery from the investment manager engaged on the trust, this service provider operates in Australia and employs a highly skilled workforce of executive and professional personnel.
Professional Services	There is low inherent risk of modern slavery from the professional service providers engaged in the trust, all service providers operate in Australia and the service providers employee highly skilled workforce of executive and professional personnel.

## Actions to Address Modern Slavery Risks

As a Trust, addressing Modern Slavery risks is different to the approach that can be undertaken by a company which has direct oversight and control of its own operations. That is because the Trust itself owns no real property and has no employees, and can have influence, but not direct control, over its investments (being passive fund vehicles to hold assets on behalf of its investors). The Trust does not make management decisions with respect to either investment manager of the Trust and its sub-trusts, being the LOGOS Investment Management Pty Ltd business (the 'Investment Manager'), or the broader LOGOS Australia Company Pty Ltd company ('the LOGOS Group') which the Investment Manager is a part of. Whilst these limitations exist, as Trustee, we do and will continue to engage with the Investment Manager regarding modern slavery to ensure compliance with legislation.

As a trust within the LOGOS Investment Management Pty Ltd portfolio, the Trust is subject to the group wide modern slavery policy of the LOGOS Group which sets out its commitment in proactively identifying and responding to potential modern slavery risks in its direct and indirect supply chains. This includes prequalification evaluations and surveys of new and existing suppliers and joint venture partners. The policy sets out the mechanisms established to manage these risks, and supports the intentions made by LOGOS Group as signatory to the United Nations Principles for Responsible Investment ("UNPRI"). LOGO Group's broader policies and procedures relevant to modern slavery include:

- Group Sustainability Policy;
- Environment, Social and Governance Policy;
- Supplier Code of Conduct; and
- Speak Up Policy.

## Due Diligence

### Risk assessment

The Trustee's annual risk assessment was conducted to assess the Trust's inherent modern slavery risks in its direct supply chain. The results of the risk assessment are used to prevent, identify and address modern slavery risks that may operate within the Trust.

### Investments

The Trust's ultimate assets are a portfolio of logistics assets in Australia. It is managed by the Investment Manager directly (through its appointment) or indirectly (through 3<sup>rd</sup> party supplier engagements at the Property Trust level) to manage every aspect of logistics real estate, from sourcing, acquisition, development, asset management and divestment.

During the reporting period, the Trust incorporated modern slavery considerations into its investment policies and processes (by its adoption of the LOGOS Group's modern slavery policy). For example, responsible investment principles with consideration to human rights and modern slavery are integrated into the investment approvals protocols.

The LOGOS Group ensures the Trust's accountability for modern slavery issues within the investment process by having in place a risk framework for assessing supply chain risks, with consideration to its direct engagements and engagements which the LOGOS Group can influence.

---

## Supply Chain

As the Trustee for the Trust, PCT owns the relationships with the direct suppliers which are used by the Trust. As part of the Perpetual Group, the Trustee is subject to the same policies, due diligence and remediation process to address modern slavery as the Perpetual Group. This includes adherence to Perpetual Group's Modern Slavery Framework, which sets out the programs, processes and tools in place to ensure compliance with the Modern Slavery Act.

Procurement processes including provisions focused on modern slavery within contractual terms with new suppliers to ensure our suppliers understand we require them to assess and manage modern slavery risk in their business. New PCT employees take part in the online modern slavery training module and employees have access to Perpetual Group's grievance mechanisms.

## Training and Communication

Perpetual has a process for all trusts to follow for modern slavery reporting. This process includes:

- Engaging with investment managers to ensure they are aware of the modern slavery reporting obligations and seek their input to Modern Slavery Statements; and
- Providing training for the Trust's Client Managers conducted by our Sustainability and Modern Slavery Manager.

## Remediation

As a Trustee, PCT may be linked to modern slavery through our business relationships with other entities via their own investments and supply chains, however, it is unlikely that the Trustee will directly cause or contribute to modern slavery.

Perpetual Group's remediation approach is outlined in our Modern Slavery Framework, which the Trustee is subject to. Should an incident of modern slavery occur in a Trust which we have 'caused or contributed' to, we would engage with the Investment Manager and act in accordance with our remediation principles.

The purpose of remediation is to ensure Perpetual takes reasonable steps to:

- Address the underlying root causes driving the modern slavery if possible;
- Prevent the modern slavery impact from re-occurring by collaborating, supporting remediation and monitoring the implementation of remedial measures taken by another party; and
- Ensure compliance with national and international labour and human rights standards.

This remediation process has been approved by Perpetual Group's Executive Committee and has been captured in our Modern Slavery Framework. The process details specific steps that we will take if Perpetual has 'caused or contributed' to modern slavery.

This approach to remediation is led by a set of guiding principles. These include ensuring that our actions are in the best interest of the suspected victim or victims and responding in a way that is appropriate to the circumstances of the situation.

The principles also articulate that we will take steps to prevent further harm to achieve the best possible outcome for the victim or victims and consider whether there is any action that Perpetual can take that may address the underlying structural factors that have contributed to the exploitation.

The Modern Slavery Framework, including the remediation process, is available to employees on Perpetual's intranet.

## Grievance mechanism

Modern slavery is a form of reportable misconduct under Perpetual's Whistleblower Policy. Through this mechanism, employees in the Perpetual Group, including the Trustee, can report any concerns to a Whistleblower Protection Officer within Perpetual or anonymously through our third-party whistle-blower hotline. Training on how to access and report through this mechanism are provided in the Perpetual Group's employee-wide modern slavery training program.

For the Investment Manager, there are also policies in place (the 'Speak Up Policy') to support and encourage anyone within or outside of the LOGOS Group to raise grievances relating to modern slavery and human rights.

---

## Measuring the Effectiveness of Actions

Outlined below is the key progress made by the Trustee on behalf of LOGOS Australian Logistics Venture Trust in FY23 and the actions for FY24.

### FY23 progress:

- Mapped the Trust's supply chain to identify the different sectors their service providers are from
- Conducted annual risk assessment to determine inherent modern slavery risks
- Reviewed and updated our process for assessing and reporting on Modern Slavery in Trusts

### Actions for FY24

- Monitor emerging global trends in modern slavery and include anything relevant for the FY24 risk assessment
- We have commitment to have Trust statement reporting process reviewed annually internally and every three years by a third-party Modern Slavery expert.
- Review and update Modern Slavery training for Trust Managers

## Appendix

### Appendix 1: Australian Modern Slavery Act – Mandatory Reporting Criteria

The following table describes the location of each mandatory reporting criteria within the FY23 Modern Slavery Statement.

Mandatory Reporting Criteria	Location in Statement
Identify the reporting entity	Reporting Entity, Page 1
Describe the reporting entity's structure, operations, and supply chains	Structure, Operations and Supply Chain, Page 1
Describe the risks of modern slavery practices in the operations and supply chains of the reporting entity and any entities the reporting entity owns or controls	Modern Slavery Risks, Page 2
Describe the actions taken by the reporting entity and any entity that the reporting entity owns or controls to assess and address these risks, including due diligence and remediation processes	Actions to Address Modern Slavery Risks, Page 4
Describe how the reporting entity assesses the effectiveness of actions being taken to assess and address modern slavery risks	Measuring the Effectiveness of Actions, Page 6
Describe the process of consultation and any entities the reporting entity owns or controls	Consultation, Page 1
