Our Governance

The Lionel Samson Sadleirs Group has a well developed corporate governance framework, to address risk and compliance issues, including modern slavery and human rights.

The framework includes the following:

Assessment & Mitigation of Modern Slavery Risk

The Group's enterprise risk management framework provides a key mechanism for the analysis, assessment and management of modern slavery and human rights risks.

supply chains; industry, workforce and geographic indicators; the effectiveness of existing controls; and, importantly, potential additional controls we can implement to reduce the relevant risks.

We will continue to use this framework to identify risk factors relevant to our Group, including the higher risk

Due Diligence & Assurance

The Group recognises that additional due diligence during supplier on-boarding and as part of a formal ongoing assurance programme, assists in the identification of risk. Where appropriate, this may require follow up monitoring and management, in accordance with our risk management processes.

our Whistle-blower processes as outlined on our website. Any matters so reported are investigated and addressed.

We have established reporting procedures where our people, suppliers and others can report misconduct, including modern slavery or human rights violations. They may also do so anonymously, pursuant to

We also maintain internal grievance and dispute resolution procedures which enable our people to raise and escalate any concerns they may have, including to our Human Resources function or the Executive Management team.

Measuring Effectiveness

Assessing the effectiveness of actions in reducing modern slavery and human rights risks can be challenging. In LSSG, both incident reporting and risk management review reporting occurs within the structure of our broader governance framework and,

as appropriate, such matters are escalated accordingly. Key performance indicators involve our assessment of control effectiveness and our ongoing progress in the implementation of additional controls – as identified in our risk management reviews.

Training & Capability Building

Our Values and core policies are communicated to our people on induction and on a regular basis.

With regards to our specific processes and controls to mitigate modern slavery and human rights risks, specialist support is provided to the Group by our Human Resources and Legal & Corporate Governance functions.

We recognise the need to further build the awareness and capability of all our employees, to continuously strengthen the Group's response to the relevant risks.

As industry awareness improves, we also look forward to working with similar organisations, to collaborate in the objective of ending modern slavery.

Looking Forward

We will pursue continuous improvement in our efforts to reduce the risk of modern slavery, and any other infringement of human rights, in our business and the sectors in which we operate.

This will include a focus on:

1. Enhanced due diligence

Implementing a standardised and risk based assessment process for new and existing suppliers.

2. Capability building

Developing additional training for relevant managers and staff in the identification, management and reporting of modern slavery risks.

3. Systems and processes
