MODERN SLAVERY STATEMENT 2025

AQUA TERRA OIL AND MINERAL SERVICE AND
SUPPLY COMPANY PTY LTD (ATOM)

ATOM

atom.com.au | getit@atom.com.au | 1800 999 024

This statement is provided by Aqua Terra Oil and Mineral Service and Supply Company Pty Ltd ACN 009 347 399 (ATOM) in accordance with the Modern Slavery Act 2018 and outlines the steps taken by ATOM to monitor and reduce modern slavery risks in its supply chain. This statement covers the year to June 2025 and is issued on behalf of ATOM and its related bodies corporate and is approved by the Board of the respective entities.

OUR COMMITMENT

ATOM does not tolerate any form of human rights abuse or violation, including modern slavery. We recognise the important role the business community has in reducing the risk of modern slavery and other human rights abuses.

ATOM acknowledges the responsibility we have in promoting ethical and sustainable business practices for not only ourselves but for all stakeholders throughout our supply chains. Human rights are of significant importance to all of ATOM's employees, customers, and communities surrounding the locations we operate in, and as such ATOM is committed to a journey of ongoing and continuous improvement to ensure the risk of modern slavery within our supply chain is minimised.

ATOM: THE TEAM BEHIND THE TEAMS

At ATOM, we are the team behind the teams, driving industry across Australia. What makes ATOM truly different can be summed up in one word:

SERVICE.

From offering world-class supply chain solutions to delivering tailored support, we focus on service excellence that helps our customers thrive.

Although our capabilities are impressive:

Employees
500+ ATOMites

**Warehouse
Distribution Capacity**
Over 36,000m²

Branches
12 across Australia

Products
Access to over
1 million

Suppliers
Over 3,000 around
the world

Deliveries
508,000+ items
per year

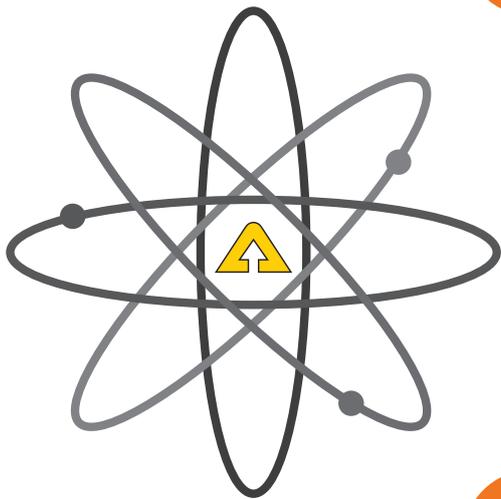

Consignments
361,000+ per year

At ATOM, we don't just supply products —
we support customer success every step of the way.

ATOM: THE TEAM BEHIND THE TEAMS

Our Values:
We are all ATOMS

A

Authentic

We bring our true selves to work

T

Transparent

We operate in the open

O

Open

Open to ideas, feedback, and challenges

M

Motivated

We strive with intention

S

Service

We act in service to others

Our Guiding Principle:

We do the little things for each other so the little things get done for our customers.

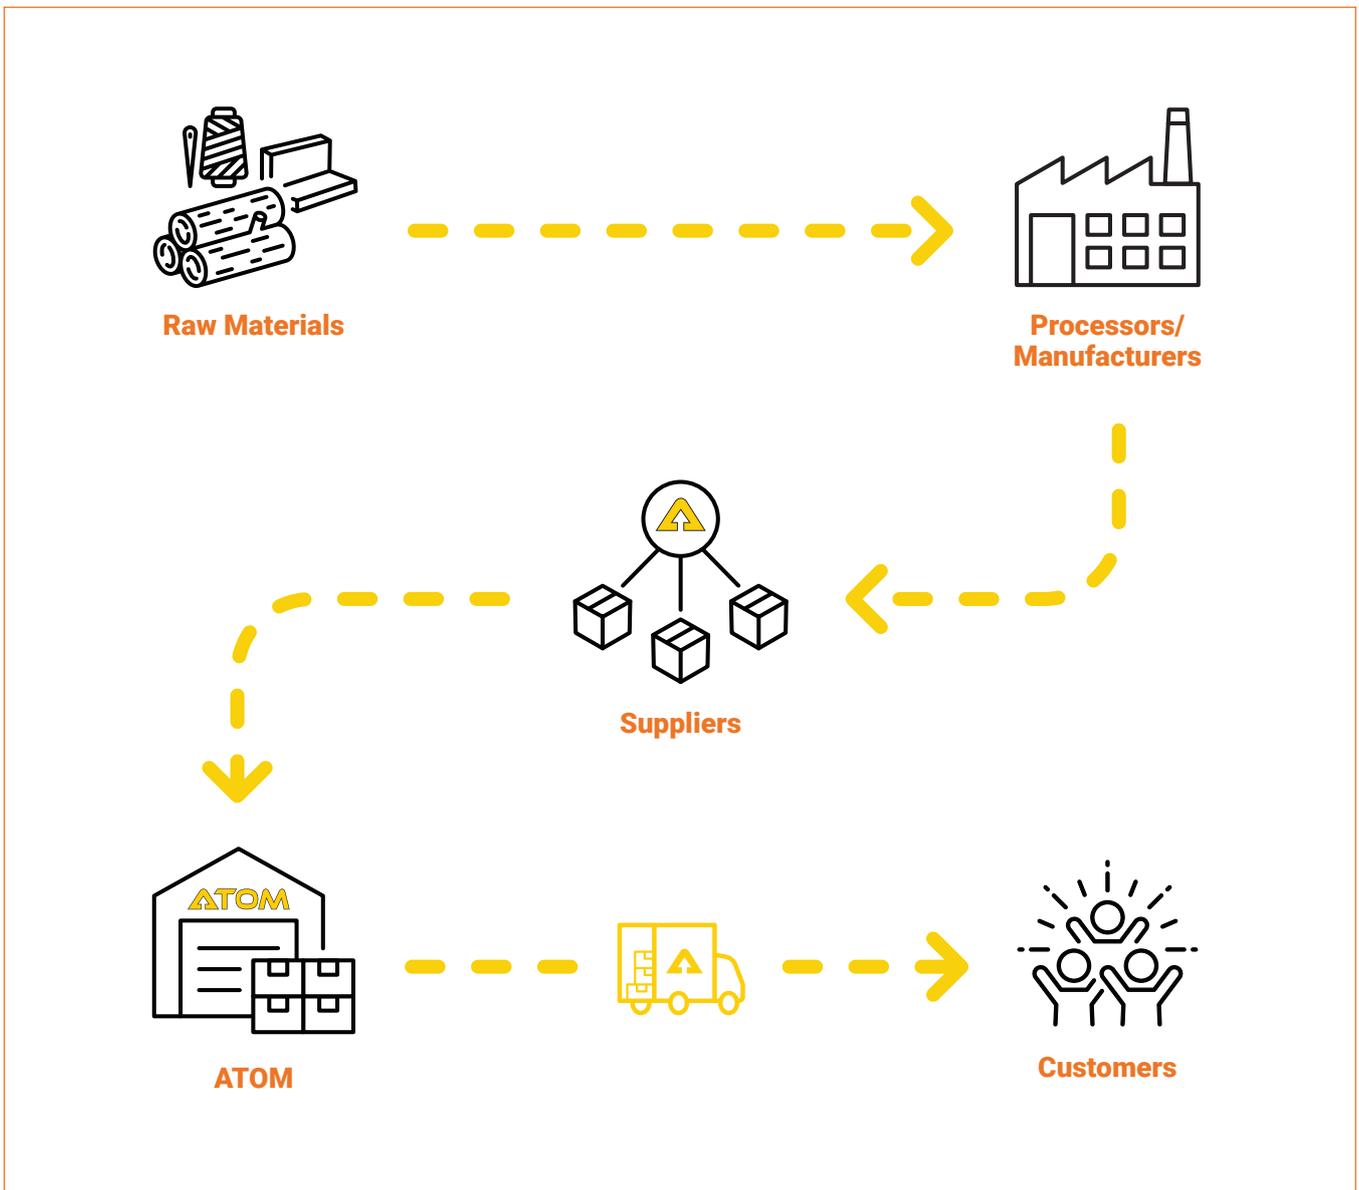

OUR SUPPLY CHAIN

ATOM engages with and purchases directly from a diverse range of suppliers to supplement our vast product offering. Many of these suppliers source from and have manufacturing facilities in multiple locations internationally. In FY25 ATOM purchased products from approximately 3,000 different suppliers, reflecting the diversity of sourcing that occurs through our supply chain. Approximately 80% of purchases are made through ATOM's top 270 suppliers. ATOM primarily sells within Australia to a range of customers and industries but also has export capabilities supporting industry in various regions internationally.

As we source from a diverse and expansive supplier base, we recognise that there is a risk modern slavery exists in our supply chain due to both its complexity and the wide variety of products sourced from a large supplier base.

The risk of modern slavery is expected to be higher with some suppliers due to the size of their companies, industries they operate in, nature of their products, the geographical location of their manufacturing facilities as well as the complexity of their own supply chains, while lower in other suppliers who are based in Australia with local manufacturing and those who source raw materials and other inputs locally.

ATOM also engages suppliers for business support functions such as information technology, logistics, vehicle and material handling equipment maintenance, property services (including waste, cleaning, utilities and security), legal and accounting services and marketing. These suppliers are primarily within Australia and form a smaller part of ATOM's supply chain.

MODERN SLAVERY RISKS

Given the diversity and complexity of ATOM's supply chain, we acknowledge that risks of modern slavery may be higher among suppliers with overseas manufacturing facilities or extensive supply chains in high-risk regions. Risks may also be present in manufacturing and raw material extraction industries.

ACTIONS TO ASSESS AND ADDRESS RISKS

Supplier Engagement and Due Diligence

- **Prequalification Questionnaire:** All new suppliers must complete a comprehensive prequalification questionnaire, providing information on how they manage ethical sourcing and their policies on modern slavery.
- **Sedex Registration:** ATOM have partnered with Sedex Global to help manage our ethical sourcing commitments. Sedex provides ATOM with an ethical platform where we can operate responsibly and sustainably. Sedex allows ATOM to maintain data on ethical & responsible practices in four key areas:
 - Health and safety standards.
 - Labour standards.
 - Environmental impact.
 - Business ethics.

In addition, Sedex is an accredited host of the SLCP (Social & Labor Convergence Program), which provides a joint assessment framework to improve working conditions in the global apparel and footwear supply chain.

- **Supplier Risk Assessments:** ATOM conducts risk assessments, prioritising engagement with our top 270 suppliers, representing 80% of procurement spend.

Ongoing Supplier Engagement

- **Quarterly Business Reviews:** ATOM reviews Modern Slavery incidents or reports as part of their QBR process with suppliers.
- **Modern Slavery Policy:** ATOM sets clear expectations for suppliers to uphold ethical and sustainable business practices and adhere to our Modern Slavery Policy.

Employee Training and Awareness

- **Modern Slavery Course:** Procurement team members complete a modern slavery training course, covering:
 - What modern slavery is.
 - Types of modern slavery.
 - Responsibilities for addressing modern slavery.
 - Actions individuals can take to mitigate risks.

This training ensures employees understand modern slavery risks, can identify red flags, and contribute to mitigating these risks across our operations and supply chain.

Internal Collaboration

ATOM's Supply Chain Assurance Committee consists of ATOM management from areas such as Procurement, Supplier Engagement, Finance and Contracts and

assists in monitoring the risks of modern slavery, as well as identifying training opportunities to assist ATOM employees in risk identification. The Supply Chain Assurance Committee also reviews responses from the Supplier Risk Assessment Questionnaires and other supplier communications, where relevant. The effectiveness of these programs will continue to be assessed to ensure risks are appropriately identified and actioned.

Effectiveness Assessment

To ensure our efforts effectively minimise modern slavery risks, ATOM measures:

- Supplier participation in prequalification and risk assessment programs.
- Feedback and engagement levels from suppliers and employees during reviews and training sessions.
- Results from audits, workplace condition assessments, and Sedex data reviews.

Consultation and Governance

The Directors of the trading entities covered by this statement reviewed and consulted prior to approving the statement. The related bodies corporate also covered by this statement, which are in nature holding companies, are ultimately under the same directorship, or oversight, or executive management as ATOM and as such consultation occurs simultaneously for ATOM and its related bodies corporate.

Ongoing Commitment

ATOM recognises that addressing modern slavery requires ongoing commitment and collaboration. We remain focused on enhancing our processes, engaging with suppliers, and raising awareness to uphold ethical standards across our operations and supply chain.

Looking to the future, we're making it our mission to strengthen connections with suppliers on SEDEX, a leading platform for ethical trade.

By working closely with SEDEX-certified suppliers, we're taking a proactive step toward gaining greater visibility into every stage of our supply chain. This commitment not only ensures ethical sourcing and sustainability but also empowers us to assure our customers that their products align with responsible practices.

ATOM is driving positive change across industries through collaboration, innovation, and a shared focus on transparency. Together with our supplier network, we're building a future where ethical and sustainable supply chains are the norm.

ANNEXURE 1 – MODERN SLAVERY ACT 2018 (GTH) MANDATORY CRITERIA CHECKLIST

The table below indicates where information related to each of the mandatory criteria in section 16 of the Act can be found:

Mandatory Criteria	Page Number/s
a) Identify the reporting entity.	3 - 4
b) Describe the structure, operations and supply chains of the reporting entity.	5
c) Describe the risks of modern slavery practices in the operations and supply chains of the reporting entity and any entities it owns or controls.	6
d) Describe the actions taken by the reporting entity and any entities it owns or controls to assess and address these risks, including due diligence and remediation processes.	7
e) Describe how the reporting entity assesses the effectiveness of these actions.	7
f) Describe the process of consultation on the development of the statement with any entities the reporting entity owns or controls.	7
g) Any other information that the reporting entity, or the entity giving the statement, considers relevant.	-
